Hi Paul, yes they're still planning for injections tomorrow. If you show up at 9:30 a.m. the gas may not be flowing but the folks and all the equipment will be there, and Austin is expecting you and happy to show it all to you. They will decide tomorrow (based on forecast and tomorrow's actual loads, etc.) whether injections will also be needed on Sunday, so after tomorrow's injections they'll be prepping the tankers for re-filling, etc. so they're prepared for Sunday, just in case. Plenty to see.
