Hi Amy -

SCE would like to request a week extension on this data. Given resources and work load, we need this additional time to complete this. As you know, we're currently working on our compliance reports.

I spoke PG&E and SDG&E and they support this.

If it is ok, we can send you what we did for DRA.

Please contact me if you would like to discuss further.

Thx!

Brian C. Prusnek

Subject: Energy Division Data Request on RPS Costs

Energy Division Director Julie Fitch has requested that staff obtain the following information:

An annual projection (2011-2020) of RPS-eligible energy costs for all approved PPAs broken out by below-MPR contracts, above MPR contracts that are AMF-eligible, and above MPR contracts that are not AMF-eligible contracts. To the extent possible, more granular information (costs by individual contract, technology type, bilateral/solicitation) is desired.

Please provide this information in Excel format by COB March 2. Your response should be submitted to the CPUC staff included on this e-mail.

Amy Baker
