Re: CPUC Data Requests to Pacific Gas and Electric Company Regarding Natural Gas Pipeline Safety Issues

Dear Mr. Clanon:

Pacific Gas & Electric Company (PG&E) has established a centralized electronic mailbox address for receiving data requests from the California Public Utilities Commission (CPUC) relating to the September 9, 2010 San Bruno accident and natural gas pipeline safety issues.

PG&E respectfully requests that the CPUC and its staff send all future data requests relating to the San Bruno accident and natural gas pipeline safety issues, with the exception of NTSB-related requests, to PG&E's new electronic mail inbox: RegRelSBRequests@pge.com. The CPUC's use of the centralized electronic mailbox will help PG&E better track the requests, thereby promoting timely, accurate and complete responses.

We have discussed this initiative with Richard Clark and Julie Fitch and they support it. While the requests will all flow into a single mail box at PG&E, the responses will be delivered back to the requesting CPUC party. Please contact me if you should have any questions.

Sincerely,

Brian K. Cherry
VP, Regulatory Relations
