Subject: PG&E advice letter 3165-G and 3165-G-A (annual gas true-up)

Hello [Redac] As we discussed yesterday, the Energy Division is going to approve PG&E advice letter 3165-G-A (Annual Gas True-up of Gas Balancing Accounts) and AL 3165-G (except to the extent AL 3165-G was updated or supplemented by AL 3165-G-A).

In this year's AGT filing, expected in November 2011, if PG&E finds it necessary to file a supplement to the original advice letter, we would like for PG&E to replace the original advice letter in its entirety. It can be somewhat confusing about what is actually being approved if the supplement only partially updates or supplements the original advice letter.
