Chris, this is the purpose of the "Custom Project Process" document that we all commented on in the Case Management Statement submitted end of Feb and the subject of the PFM.

But because the process has not been finalized and approved, this approval process has not been officially implemented.

Subject: Quick Question

Is ED
reviewing/approving individual commercial and industrial energy efficiency
projects before the projects can move forward?

If so, I would like
to understand your perspective on this process.

Thanks,

Chris
