Subject: RE: Stipulation

I think we are going to be ok on the additional requirements language and placement, although they were so distracted by the stipulation edits that I haven't closed on that yet. I think I can get it moved to the end of the section we were talking about though.

On totaling the miles, I considered that too. But PG&E intends to do MAOP validation on the full 1805 miles (and that's stated in the narrative) -- it's just that the full 1805 does not have the milestone specificity identified in the workplan table. So to avoid any confusion, I think we should not total it. I don't want anyone to think we are backing off the 1805. Make sense?

Paul is talking about the stipulation now.

How are you on the language regarding the additional requirements? Also, in the table, should the total miles be cumulative? So the July 10 total miles would include both the 152 and the 295 for a total of 447 - Or are we just listing the miles for each completed group?

Ok, thanks...for whatever it is. Let's discuss when we get past today.

Okay, as I said, I haven't heard from Frank yet on Beth's additions. I think they are all downstairs waiting for the OSC.

There is one other thing I had wanted to bring up, but after thinking it over, I've decided that we can do it outside of this Compliance Plan, and that it would just muddle things up.

I should not that this came from Beth, actually, so would need to get Frank's agreement before we use it, but I'm checking with him now.
