

**All-Party Meeting
Rulemaking 08-08-009**

**2011 Renewables Portfolio Standard Procurement Plans for Pacific Gas
& Electric, San Diego Gas & Electric, and Southern California Edison**

March 25, 2011
3:00pm – 5:00pm

California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102
Hearing Room A

Draft Agenda

3:00pm – Opening remarks of Commissioner Mike Florio

3:10pm – Discussion of need for 2011 Renewables Portfolio Standard (RPS) solicitations

- Where does renewable procurement of the Investor Owned Utilities (IOUs) stand relative to RPS targets established by SB107 and proposed in SBx 2?
- How much eligible renewable energy does each IOU need to procure and when?
 - o What methodology does each IOU use for projecting RPS contract failure rates?
 - o What methodology does each IOU use for projecting renewable resources which may be procured through the Reverse Auction Mechanism?
 - o How much eligible renewable energy does each IOU have “banked” and available for use in RPS compliance?
 - o If SBx 2 becomes law, are the short-term contracts currently under consideration by the Commission still needed?
- Is an additional RPS solicitation necessary and prudent in 2011?

4:00pm – Discussion of ALJ Mattson’s Proposed Decision (PD) conditionally accepting the 2011 RPS Procurement Plans of the IOUs

- Will the 2011 RPS solicitations conditionally authorized by ALJ Mattson's PD result in renewable procurement options that fairly balance cost and risk across all stakeholders?
- How does the PD's resolution of the following key issues support ratepayer interests?
 - o Economic curtailment and congestion adders
 - o Integration cost adders
 - o Tradable renewable energy credits

4:45pm – Other issues?

4:55pm – Closing remarks
