Notes to the PDSR:

- Assumptions/methodologies for specific columns are included as a comment in the column heading.
- AB1969 projects are included but require no data reporting.
- Online projects, negotiations terminated projects, and contract terminated projects have no reported PV scores.
- For projects in which negotiations have terminated or are inactive, PG&E has reported what it has for those projects, but it

is unable to gather additional and/or updated information.

- PDSR contains utility-owned projects that would be purchased turn-key, but not UOG PV projects, since the development status of those is being addressed as part of the PV Program Compliance Report, which PG&E is also filing with the Commission today.

you,*
