Subject: FW: OII / Investigation costs

Bill..Paul wanted me to get back to you with the requested information r/e the costs for the San Bruno Independent Review Panel. We have received \$500,000 from PG&E for the panel costs, and at this time, we estimate we will need an additional \$200,000. You may contact Beverly Sligh (415.703.1650, bfh@cpuc.ca.gov), our Fiscal Office Manager to receive instructions on how to transfer this amount to the special deposit account created to hold these funds. At this time, we have not developed a cost for the work associated with the new OII on the San Bruno investigation.

OII / Investigation costs

Paul:

I know that you are in DC for the NTSB hearings and are completely wrapped up in that; however, we are getting questions about how much we would need to set aside to reimburse the CPUC for its costs associated with the new OII. At the very least that would include the costs incurred by the CPUC in conjunction with its investigation of the San Bruno explosion including consultant costs. If we could get that for at least what would be due in 2011 that would be great.

And if we could also get the 2011 estimate for the IRP costs beyond the initial \$500k that would be helpful.

Thanks.

Bill
