**QUESTION 4**

Provide documentation of the PG&E/Wellington installation QA/QC procedures used to ensure gas meters are correctly installed during initial meter deployment.

**ANSWER 4**

Attachment DRA\_003-04-1 is PG&E's Utility Procedure TD-6436P-29, "Gas and Electric Meter Changes and Removals," which provides the procedures used to ensure gas meters are correctly installed.

While PG&E's SmartMeter™ installation contractor, Wellington Energy Incorporated, installs SmartMeter™ Modules on gas meters, only PG&E employees install gas meters. Because Wellington installers do not install gas meters, Wellington has no procedures for PG&E meter installations.
