Date Sent:	March 15, 2011	Requesting Party:	DRA
PG&E Witness:	N/A	Requester:	Tom Roberts

**QUESTION 24**

What type of customers use the following meters: 4s, 3s, 2k, KV2c and Class 320 2S?

**ANSWER 24**

The 4s and 3s meters are used by small commercial customers. Most residential customers use the 2s meter. However, residential customers with large loads use the 2k and 320 2S. As noted in the response to Data Request DRA\_003-23, the term “kV2c” refers to a particular meter model, not a meter type. Generally, customers using the kV2c meter model are commercial customers.
