Bcc:
Subject: Second Confidential Version of March 2011 PDSR

CONFIDENTIAL PROTECTED MATERIAL
Documents protected pursuant to D.06-06-066, D.08-04-023 and General Order 66-C
****PLEASE DO NOT FORWARD****

Amy,

Per your request, please find a second version of the Confidential March 2011 PDSR report.

As discussed, we have provided GCOD for online projects that don't have a contractual GCOD and for projects whose GCOD or delivery is dependent upon the CPUC approval date using the guidance you provided; we also noted these changes in the project information notes column. In addition, we changed pricing and quantity cells to remove any text. The notes column provides the additional and explanatory information that was previously in the cells.

One item: We are unable to change the GCOD and COD date for one project because the cells are locked. Could you please change the GCOD and COD dates for Stockton Cogen from 2/27/1988 to 3/10/2010 (Row 92/Columns J & K)...thanks.

Finally, please accept the confidentiality declaration and matrix submitted with the original March 2011 Compliance Report as confidential protection coverage for this attached material.

Please let me know if you have any questions or comments.

Kind Regards,
Beth
