Subject: RE: Category 1&2 backbone locations

Rich, this is the equivalent sheet for the Category 3 lines, to the one I sent you earlier. It shows there are a total of 77 feet in this category. The Mile Posts are as noted.

Subject: Category 1&2 backbone locations

Rich, attached is the file we discussed. In terms of your two questions, we've got folks working to identify where the Category 3 backbone pipe is located, but at this point we can tell you that Category 3 increment is a little less than 6 additional miles. We're also hunting down the answer to any crossover between the already-reduced and the previously-discussed 153 miles (Cat 1&2). Will give you an ETA if we can.

Thanks for your patience.
