[Redacted] of Gas Control will be contacting the Principal at [Redacted] right away.

He said the situation is this.

The fire department evacuated several blocks and several other entities self evacuated. PG&E's facilities have been secured and made safe. GSRs are in the process of performing relights. As far as fire department mandated evacuations goes, they have to make the decision to allow the evacuees to return. That is their call not ours.

I have been in touch with [Redacted] in via Trista Berkovitz's group. He is digging into it and will call me back in a few minutes. Can you get the contact information for the principle so that he can contact her?

school evacuated to [Redacted] no injuries or other issues. School canceled for tomorrow. (then vacation)  
Cars and other personal belongings cannot be accessed.

Please distribute this message to other Board members. Nicole's phone has no battery life.
