Sounds pretty good to me.

**Subject:** P21 Next Steps

Mike,

During President Peevey's LLNL tour, he mentioned that there had been unnecessary delays in the P21 Application process. Last week, he again inquired about the status of the P21 application and asked that I work more closely with Carol Brown in expediting the process. I have a meeting with President Peevey this Wednesday on another issue; however, I suspect that the P21 Application process will be mentioned.

Last week Brian Cherry suggested that we set a goal of completing the P21 Application by the end of April (admittedly, an ambitious goal). As we discussed last week, PG&E would like SCE to develop the first draft of the Governance Structure and an additional Use/Business Case to be included in the Application being developed by PG&E.

I spoke to Jennifer last Friday and she suggested the following:

- We arrange a conference call this week between she, Erik Jacobson and the individuals at SCE who will be working on the P21 Application.
- We arrange a P21 Working Meeting in Rosemead during the week of April 11<sup>th</sup>.

Can you assist in arranging SCE's participation in the conference call and the working meeting?

Best regards,

Will

Mike,

I just learned from Bruce Foster (see email below) that Litzinger has agreed to participate in P21 at the \$150MM level. We intend to fast track the application process to get it filed.

Additionally, Bob Foster is schedule to take the LLNL tour on April 20<sup>th</sup> and will be meeting with Yakout Mansour tomorrow to discuss his inclusion.

Best regards,

Will

**Subject:** RE: LLNL

Gentlemen,

Attached are the most recent documents I have on LLNL as well as LLNL's amended funding profile. I have also attached a more user friendly spreadsheet layout that I prepared for Chris Johns.

Please call if you have questions.

Jennifer
