Cliff:

San Luis Obispo seems to be the latest front.  
Please let me know if there has been some outreach in that community, including discussions with the local officials. Thanks.

Supporting Materials.

Hello: It turns out I  
will be at work tomorrow. Let me know if you folks would like to meet in the  
afternoon (I could come to PGE). I have gone thru the application and some

topics we can discuss now or later.

Supporting Materials.

I appreciate the offer. I am trying to avoid extra work for you guys. The general briefing session is set up for next Wed. One option is to do a smaller meeting right after with a smaller team, to cover greater detail on some issues if needed. If you feel an earlier meeting would help, I am available this afternoon and could come to PGE. Tomorrow is a holiday. Fri might be possible, but there is a small chance I might have to take off. Mon/Tue I am planning to be off, but that may change later.

Aloke: i know that Sid is reaching out to Bruce and others, and you would certainly be invited to a briefing at the CPUC. It seems that will be next week, however, Cliff and I are willing to do a briefing specifically for you if that will be helpful. Any of the next few days, at our place or yours.

Would that work?

Jim

Cliff:

Thanks for the filing; also got your voicemail. Given the high level of interest, we would like to arrange a briefing session relatively soon for Commission staff. Please suggest some dates where your team can come to CPUC. We should probably allow for 1 to 1.5hr general overview for a larger team (that may included folks from outside Energy Division), followed by a deeper dive on some issues with a smaller team if needed. Thanks.
