Subject: Quick meeting tomorrow?

Michelle, Julie,

I was wondering if the three of us could get together tomorrow morning. That would give me an opportunity to give you the additional discs of the hydrotesting maps which I brought today and meant to give to Julie, and forgot. I was also hoping to calibrate my notes w/ Julie on Commissioner Sandoval's concerns from the OA, and also just get a reality check on the two very different takes that Kirk and I had on the meeting with CPSD today. I could come over any time; morning is better but I will make any time work. Thoughts?

Trina
