Yes. Please. I've actually asked for this on several occasions previously. When would you expect that we might receive it?

We do have them...should we put together a table with route #, miles & mileposts?

Rich:

Sumeet is the lead on this sort of issue and below is his response to my inquiry on your request. Is this information sufficent for your present purposes?

Bill

All,

The only information that we have available that is requested in Rick Clark's e-mail below is "Route No." and "Miles." We do not have "Pipe Miles to be Tested / Replaced" for priorities 2 - 4. The Pipeline 2020

filing will be addressing the proposed field actions (miles to be tested, replaced, etc.) for the pipelines associated with the criteria in these priority categories.

Please let me know if you would like our team to compile the "Route No." and "Miles" information. Thank you.

Sumeet
