Subject: update for Sempra Mesquite

Meredith,

Can you let me know when staff can expect to get the updated information that we discussed during yesterday's contract manager call. Please provide any and all information and documentation that you have and identify what information PG&E believes is confidential. One more question, does the contract include a no-fault termination or other similar conditions precedent if Sempra doesn't receive their preferred interconnection solution?

Revisions to the draft resolution will need to be processed Tuesday morning in order to vote on Thursday so it would be great to get the information this week.

Thanks, Sean
