Subject: RE: Meeting to discuss Advice Letter Template for Renewable QFs

Hi, Meredith,

I have to be up in Sacramento on Tuesday so won't be able to meet then re- the revenue allocation issues. How about we do both meetings back to back on Wednesday. 4:00 to go over the template, and then 4:30 or thereabouts to go over the GHG revenue allocation issue?

Thanks,

Andy

Both of those times work great.

Glad conference was good. Arnold and a wax George - very cool and LA. EJ issues are interesting in context of AB32. There are other laws/rules that address their concerns, such as air quality, but they have been very effective in elevating their issues in this context.

We sent biomass template to SCE and hope to get their feedback early next week.

Have a great weekend!

I did see the press release. Keeping it real...

The trip and conference were good. It's helpful to put some faces to names, especially that its a new set of people I'll be working with on these issues. Gina McCarthy (EPA Assistant Administrator) gave a good presentation in which she suggested that the EPA is open to the idea of granting exemptions to its GHG rules for entities operating in jurisdictions that have a climate regime/framework in place. I thought that was interesting, though the extent to which it will actually help drive regional programs, like the WCI, I guess depends on how onerous the EPA regs end up being. Schwarzenegger was entertaining as always. I also went to a very poorly attended Environmental Justice panel that was pretty good. Some of the data was interesting. And it was nice being in LA. Weather was awesome,

and the wax George Clooney in my hotel lobby really classed the whole thing up.

How about Wednesday at 4:00 to discuss the AL Template? Re- allowance return issues, Tuesday at 11:00 would work.

Andy

Hi Andy,

Yes. Did you see the CPUC press release? Trip was great. Hope your travels went well. Curious to hear your thoughts on the CAR conference.

Our team has been working on template and will be ready to meet next week. Would Wednesday anytime after 2:30 work? Or Thursday at 3:00?

Also, we should schedule time to discuss the allowance return issues and rate impacts. Would Tuesday work for that meeting?

Thanks,  
Meredith

Hi, Meredith,

Heard the news about Darbee...Funny timing given our conversation last week. How was your trip to DC?

I wanted to follow-up on the Renewable QF advice letter template. When would you be able to come in to meet with staff to discuss?

Thanks,
