Subject: PG&E Diablo Canyon Power Plant Tour

All:  
I'm reaching out to you regarding Brian Cherry's email below to Comrs. Mike Florio, Catherine Sandoval, and Mark Ferron to visit PG&E's Diablo Canyon Power Plant (DCPP) for a sight tour. If the Commissioners and their staffs are interested in a tour, please let me know. I will be handling the necessary arrangements.

For your consideration, I've listed below dates when the DCPP is open for a 5 to 6 hours sight tour:  
June 3 (Friday);  
June 27, 28, 29 or 30 (Monday to Thursday);  
July 6, 7, or 8 (Wednesday to Friday)

If none of these dates work, please let me know what date(s) work for your office and we'll try to work it out with DCPP personnel. Herein, I've attached PG&E's Diablo Canyon Power Plant Visitor Information for your review.

Thank you kindly for your attention.

Commissioners - PG&E operates the 2100 MW Diablo Canyon Nuclear Generating Station in San Luis Obispo. I would like to extend an invitation to you and your staffs, schedules permitting, to visit the station at your convenience. If you are interested in scheduling a visit, my assistant Bernadette Joaquin will handle all arrangements. The drive to Diablo Canyon from San Francisco is approximately 3 1/2 to 4 hours. There is also an airport in San Luis Obispo and the drive to the plant takes approximately 15 minutes.
