I did receive a voice-mail message from a Meredith Allen at PG&E asking if we wanted an update on "the Diablo facility." No other details were provided and no mention of a Chief Nuclear Officer. She left a cell-phone return # - and I left her a message in return (on the cell #). I will continue to follow-up.  
Ken,

We've contacted your offices on a briefing with our Chief Nuclear Officer and haven't heard back. We've already briefed Florio and Sandoval. Peevey declined. Not sure where Ferron is right now.

Brian, I have had two direct calls from Ron Litzinger briefing me on Songs. The last one was Friday. He tracked me down in DC. He has provided me more supportive information on Diablo safety than PG&E. This is not a criticism. It is just a heads-up. Hope all is well!

Regards,

Timothy - FYI. The impact on PG&E's supply chain is minimal.

**Subject:** Japan earthquake & tsunami Supply Chain impacts

Officers,

At Headline News this week we gave a brief outline of the impacts on the supply chain of recent events

in Japan. Attached is a suumary of our assesment.
