Subject: Re: SmartMeter Technology Advisory Panel Meeting

All,

Thanks for agreeing to attend PG&E's next TAP meeting this coming Friday morning (and my apologies to those who can't make this time slot), during which we will focus on PG&E's recently-filed meter-choice application. With a regulatory case initiated and discovery open, we believe the TAP discussion will benefit if the content of the meeting is confidential. In that case, like the January 27th meeting, we propose to move forward with the understanding that (a) the meeting is subject to PU Section 583 (for those who are in fact subject to Section 583) and (b) those who are not subject to Section 583 will sign an NDA. Please let us know if this presents any problems for anyone.

Thanks,
Cliff Gleicher
