QUESTION 1

Please provide the Energy Division and MCE a list of each and every “new” (including relocations) customer account that has initiated service in Marin Clean Energy territory since May 7, 2010 and indicate which customer accounts were enrolled in full bundled service with PG&E at the time they initiated service.

ANSWER 1

The Excel file attached contains a list of every new customer account that has initiated service in Marin Clean Energy (MCE) territory since May 7, 2010. The green fields represent customers starting with MCE; the blue fields represent customers starting with PG&E.

This data is provided to the Energy Division as confidential customer information under P.U. Code 583. The same data is provided to MCE under the requirements of confidentiality and non-disclosure contained in the PG&E-Marin Energy Authority Community Choice Aggregator Non-Disclosure Agreement (NDA) (Form 79-1031).

Column B provides the Service Account ID numbers, and the date of initiation of service is in Column C. Column D indicates where the customer initiated service, and Column E identifies the current service provider. Columns F through J provide the name and address of the customer.
