Subject: DRA Data Request 001-A

Hi Meredith—

I'd like to follow up on DRA's prior Data Request 001. I have attached a data request (numbered 001-A) that asks for a tabulation of historic and future expected costs and energy deliveries of existing RPS-eligible generation across a range of program areas. It also requests current estimates of bundled system average electric rates through 2020. I have tried to fully describe the information we seek and have included an Excel file with two worksheets to assist you with filling the request.

Do let me know that you have received this. I'm happy to talk further about this request if you have questions.

Cheers,

Jason

Hi Meredith,

As we discussed on the phone, I am attaching DRA's Data Request 001 regarding RPS contract price amendments and RPS expenditures. Please feel free to give me a call if you have any questions. My number is (415) 703-2719.

Thanks and Happy New Year's,  
Yuliya
