Subject: R.11-02-019, technical coordination for workshop 6/22-23 (& 7/7)

All:

I am writing to ask your help so that we can ensure that the PwrPt presentations (or other files) will read & project efficiently at the upcoming workshop. Mr. Robert Stanford, who will be handling all IT logistics for me, has asked that presenters send him formatted but otherwise blank "slides" or other empty files so that he can check compatibility with CPUC software systems. The concern is that some later edition software output may need to be reformatted to run on our earlier edition systems. If you can do this as soon as possible, but no later than June 21, we should be able to avoid technical "bumps."

Many thanks for your help.
