R E S O L U T I O NRESOLUTION AUTHORIZING THE EXECUTIVE DIRECTOR
TO GRANT EXTENSIONS OF TIME FOR CONSTRUCTION OF
RAILROAD-HIGHWAY CROSSINGS

It has been found that projects for the construction of railroad-highway crossings often cannot be completed within the time period allowed by the Commission decision authorizing construction.

Railroad corporations and public agencies authorized by the Commission to construct railroad-highway crossings which cannot be completed within the allowed time period request extensions of time for completion of such projects.

The function of granting extensions of time to railroad corporations and public agencies to complete railroad-highway crossing projects is ministerial when granted in accordance with the conditions set forth in the order which follows.

IT IS ORDERED that the Executive Director is hereby authorized to grant, on behalf of the Commission, to railroad corporations and public agencies previously authorized by the Commission to construct railroad-highway crossings, extensions of time to complete projects for periods not to exceed two years if the following requirements are met:

1. There is no opposition from the affected party, i.e., the railroad corporation when construction authority has been granted to a public agency or public agency when construction authority has been granted to a railroad corporation, as demonstrated by a letter from the affected party which must accompany the extension of time request.

2. There has been no change in circumstances since granting of the original construction authority by Commission decision.
3. Each authorization of extension of time shall recite that it was issued pursuant to this resolution. Each such resolution when signed by the Executive Director shall be deemed to be the order of the Commission.

This resolution is effective today.

I certify that this resolution was adopted by the Public Utilities Commission at its regular conference on NOV 13 1987.
The following Commissioners approved it:
