Subject: RE: OBF Loan Data

Hello Jean,

No, you are not missing a file. That one Liquor and Food store is the first customer to go all the way through the OBF process (which includes many steps such as internal approval, project design, verification, retrofit construction and payment.)

There are about 100 customers in the pipeline, but as you can see OBF projects take a long time to complete.

Regards,

Subject: OBF Loan Data

Hi Beth,

A preliminary look at the data files seems to show just one loan participant - a liquor store. Just wondering if that is all the loan recipients through May? Are we missing a data file?

Thanks,

Jean
