

## PPM Table Compliance Issues

### PPM General

- ED would like to request that the IOUs collaborate to submit a single table with PPM reporting aligned across all the IOUs (i.e., same rows) with as few references as possible to separate tables.
- PPMs should be provided by SW program in one tab, with a column for each IOU for 2010.
- Each PPM should be provided in full in the single tab. That is, if a PPM needs many rows to be reported, all those rows should be in the single W tab with clear numbering (i.e. PPM 16.1, 16.2, etc). Assumptions informing calculations should be shown on a separate tab.
- IOUs should ensure that numbering for each PPM lines up exactly, so that comparisons can be made across IOUs applies to apples.
- PPM HVAC-1 – IOUs report in different units (e.g., kWh/ton, kw/ton, units, tons) – Needs to be standardized or reported in several units.

### PG&E

- WET-6.2 – Include metric value in the “2010 Progress” column.
- PPM#2 – CIA-2 – Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM #4 – CIA-4 - Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM ID CIA-7: Number and percent of new, improved, or ETP measures installed in the commercial, industrial and agricultural programs.
  - \* The data includes Deemed Measures. The first block is the number of instances; the second block is the number of measures.
  - **Please explain the difference between instances and measures??**

### SDG&E

- PPM# 92 – WET-6 – Did not meet the objective of completing a baseline study to determine current number of partners.
- PPM#2 – CIA-2 – Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM #4 – CIA-4 - Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM ID CIA-7: Number and percent of new, improved, or ETP measures installed in the commercial, industrial and agricultural programs. – **Missing**
- Comm-3.1 – Direct Install - Number of participants that are hard to reach (HTR) – **Missing**
- Comm-3.2 – Direct Install - Percent of participants that are hard to reach (HTR) – **Missing**

## SCE

- PPM#2 – CIA-2 – Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM #4 – CIA-4 - Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.

## SCG

- PPM#2 – CIA-2 – Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM #4 – CIA-4 - Metric amount not report in PPM table. Metric should be included with reference to description in narrative at bottom if desired.
- PPM ID CIA-7: Number and percent of new, improved, or ETP measures installed in the commercial, industrial and agricultural programs. – **Did not understand the results.**

## PPM Narrative Feedback

### PG&E

- WE&T – p. D-33 – Did not include an adequate description of status of PPM WET-6.2 as referenced in the PPM table.
- Industrial – p. D-8 – Did not include a description of program related or economic changes that impact metric results.

### SCG

- Industrial – p. 13-8 – Did not include a description of program related or economic changes that impact metric results.

### SDG&E

- Industrial – p. 13-10 – Did not include a description of program related or economic changes that impact metric results.
