Subject: RE: PANC, July 12

I suspect it will be John Grosh from the lab.

Here is his bio <http://people.llnl.gov/grosh1>

**Subject:** PANC, July 12

Brian,

The Power Assn of Northern Cal (PANC) meets on 2nd Tuesdays, and the meeting we are talking about is July 12. I am the President of the organization, which has over 200 members. Here's the site: [www.panc.org](http://www.panc.org).

We meet at the City Club of San Francisco, located at 155 Sansome St, which is within walking distance of the Montgomery Station of Bart/Muni. Registration is open at 11:30 a.m., we serve lunch at about noon, and I begin the announcements shortly after 12:30. I try to get the speaker on by 12:40, and we like to have time for questions before we wrap up at 1:15 or so. I am delighted that you have contacted the Lab about someone speaking about cyber security. That would be of great interest to our members, who are generally a well informed audience of people involved in the energy industry. Some are from regulated enterprises, including PG&E. Others are practitioners of law, developers, consultants, public advocates, and even a few public employees, including me. Our speakers have included commissioners and other representatives of government, academics, representatives of regulated and independent firms, and even a member of the US House of Representatives.

Based on our conversations, I am hoping we can hear back from you by mid-day on Friday. As I said, we are a little bit short on our time for scheduling this meeting (through our own fault, of course), so I am looking to get it settled as soon as possible. When we get a speaker, I will put that person in touch with our manager, Jeff Shelton, who will set up the information on our web site.

-- Steve.
