

**The
Energy
Coalition**

June 27, 2011

Dear Aspen Accord Participant,

I am very pleased you will be joining us for the 2011 Aspen Accord Sustainable Energy & Discussion Tour. This year marks the seventeenth anniversary of the Aspen Accord which was inaugurated by The Energy Coalition as a forum to bring together local governments, utilities, regulators and other key stakeholders to exchange information and perspectives on pressing energy issues. The core purpose of the Aspen Accord is to gain mutual understanding and build innovative partnerships between participants that will achieve significant progress toward a more sustainable energy future.

The planned activities and discussions will focus on innovative energy projects and community sustainability initiatives in Sweden and the current status of comprehensive climate and energy action plan implementation in the Czech Republic and the European Union. Events will commence in Stockholm on Sunday evening, August 7, with a reception and dinner for participants. The events will conclude on August 12, in Prague, Czech Republic.

Attached for your review are copies of the agenda, participant list, and travel confirmations. Please contact Meaghan Laverty if you have any questions or need any additional assistance. Meaghan can be reached by phone at 949-701-4646 ext. 10, and via e-mail at: mlaverty@energycoalition.org

On behalf of The Energy Coalition, I look forward to seeing you in Stockholm!

Very sincerely,

Craig Perkins
President & Executive Director
