

**PACIFIC GAS AND ELECTRIC COMPANY
San Bruno GT Line Rupture Investigation
Data Response**

PG&E Data Request No.:	CPUC_100-05		
PG&E File Name:	SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05		
Request Date:	March 21, 2011	Requester DR No.:	
Date Sent:	April 29, 2011	Requesting Party:	CPUC (ED)
		Requester:	Eugene Cadenasso

QUESTION 5

Provide all PG&E testimony in the above proceedings that discuss gas transmission or distribution pipeline replacement or repair.

ANSWER 5

Attached is the testimony for gas transmission and distribution pipeline capital projects for the following General Rate Case and Gas Accord proceedings:

1. A.85-12-050 (1987 Test Year GRC) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch01
2. A.91-11-036 et al (1993 Test Year GRC) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch02
3. A. 94-12-005 (1996 Test Year GRC) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch03
4. A.92-12-043 et al (Gas Accord) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch04
5. A.01-10-011 (Gas Accord) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch05
6. A.04-03-021¹ (Gas Accord) – Attachment SanBrunoGT-LineRuptureInvestigation_DR_CPUC_100-Q05Atch06

¹ The Gas Accord III Application is 04-03-021 and the decision is 04-12-050. It appears that the decision number was inadvertently listed as the application number in this data request.

In response to this data request, PG&E has provided the complete Gas Report Operations exhibits from the 1987, 1993 and 1996 GRCs. The exhibits include testimony supporting both the gas transmission and distribution pipeline expense and capital projects forecast in these rate cases. PG&E has provided the complete exhibit because the capital additions chapters in the exhibits generally include only a description of the forecast methodology used to calculate capital additions, whereas the distribution and transmission project descriptions are included with the chapters related to the expense forecasts.

PG&E is unable to locate the testimony for gas transmission and distribution pipeline projects for the 1990 Test Year GRC (A.88-12-005). PG&E will continue to search for this information and, if it is located, will forward a copy to you.
