Subject: Data Request re Minimum requirements for SmartMeters / ASAP

Hello Sid:

This is a short turn-around request. If possible please provide a response to the following by Tue 7/26/11 COB.

Based on prior Commission decisions, please provide a list of the minimum functional requirements specified by the Commission as requirements that must be satisfied by the electric and/or gas smart meters deployed by the utility. Please include citations to the Commission decisions for each of the requirements.

Please do not list any extra functionality or capabilities of the smart meters that exceed the minimum Commission-specified requirements.

Alope Gupta
California Public Utilities Commission
O: 415.703.5239
