Subject: LCC Follow-Up Meeting: Land Donations to Federal Agencies

Hi, Nancy.

Just wanted to check in with you about setting up some time for PG&E and the Commission to talk about the Land Conservation Commitment issues related to transfers of lands to federal agencies. I can appreciate how frustrating it is for those not close to the issues to understand why we have not been able to come to resolution but I am also hopeful that you trust we are all reasonable and rational people with the best of intentions who are trying to work our way through some very complex issues. In any case, I would appreciate an opportunity to vet this more with you before we elevate it within the CPUC and PG&E to ensure we have fully explored and mutually understand the issues to be resolved.

I am on vacation beginning in about an hour and won't be back until the 18th, so I'm hoping you and others might be interested to meet later this month? As much as I hate to admit it, I will be looking at e-mail occasionally while on vacation so please let me know how you would like to proceed and I'll get someone on point to work through the logistics.

Thanks, and have a great holiday weekend!

Mike
