Subject: Re: Meeting to discuss curtailment scenarios and planning

Michelle,

This is to confirm our conversation from this morning.. Based on discussions with gas operations PG&E does not believe that curtailments are likely on our system in the next five days due to weather or other foreseeable events. While it is always possible to have an operational emergency such as a compressor loss, there is no reason to expect this.

On that basis, we propose to meet with you and your staff on August 2 at 3:30 pm to discuss our curtailment scenarios and planning if this is still best for your schedule.

Please let me know if this time still works, and I will finalize the meeting on outlook.

Thank you again for your patience on this matter. As always, it is a pleasure working with you.

Best regards,

Jennifer
