Subject: RE: ISO Webcast to Market Participants planned for next week

Paul, Michelle and Julie,  
Just wanted to give you a heads up:

- The ISO is planning to do a webcast for market participants that would include: 1) a presentation by PG&E on the gas testing work, and 2) a presentation by ISO on PG&E/ISO coordination to minimize impacts on the electric grid.
- Likely this call will occur Wednesday or Thursday of next week although the ISO has not yet put out an announcement.

Please let me know if you need additional information.
