Subject: PG&E Hydrostatic Test Documentation: T25A Final Report

Team,

Please find attached the following components of the hydrostatic test report for the T-25A section on line 132 in Santa Clara:

- Final Strength Test Pressure Report (STPR)
- Pressure Record
- Bureau Veritas Certificate of Compliance

Please note that the RCP certification, which was previously emailed, is too large to be received by your email systems. I will investigate an alternative method of sending you the data.

Please let me know if you have any questions.

Thanks,

Angie
