Subject: RE: RE: Dig in in Oakland

Michelle,

As a update to incident in Oakland, apparently this was not a dig in. It sounds like a tee in a plastic line came uncoupled while work was being done.

Will let you know if I hear any more.

Jennifer

Michelle,

You may have already gotten a heads up from Sunil as he was on the phone with Ben Campbell when Ben was made aware of this incident.

- We've had a dig-in in Oakland on one of our 4 inch gas distribution lines
- Redacted residents were evacuated
- I don't have much information, but there has been media coverage so you may get inquiries <http://www.ktvu.com/news/28873661/detail.html>
- PG&E's safety team and construction leadership is on site
- Gas control has been informed and we are assessing the situation

I will keep you posted, but please call me if you have questions.
