Subject: RE: Line 101 Notification

Shilpa and Sumeet:

The only time that will work for me is the 6-7 time period for tonight. Please let me know if that works and the call in info.

Thanks.

Sunil

Subject: Line 101 Notification

Sunil,

Tomorrow we're going to be submitting a Dig Notification for Line 101 with less than the standard 14-day notice as this is one of the lines where we will need pressure increased before the winter. We'll be presenting the pressure request increase in the CPUC process put forth in the pending Proposed Decision.

Given that we're providing less than 14-day notice and the sensitivity around Line 101, we wanted to reach out to you and provide background on the dig. Are you available for a quick chat with Sumeet and I today between 1-2 PM or 6-7 PM, or tomorrow (Thursday) between 10-11 AM or 1-2 PM? We would need less than 30 minutes of your time.

Thanks in advance.

Shilpa
