Hi David,

Perhaps you can provide me with a couple of dates that you and your colleagues would be available for a visit and then I can coordinate with LLNL.

Best regards,

Will

Great David. I think you'll enjoy it. You are welcome to bring staff.

Thanks Brian, Yes, we would like to tour the lab. I already left a message with Eric Jacobson, who offered us a tour along with a briefing on the proposed project.

Mark and David - I'd like to extend an offer for you to visit the Lawrence Livermore National Laboratory and be briefed by Senior Staff on the CES-21 project that the joint utilities filed a few weeks ago. We aren't trying to sell you anything per se, but we would like to hear your views and give you an overview of what we are trying to accomplish. If that works for you and you'd like to see the campus (which is worthwhile in and of itself separate from the CES-21 project), let Will Johnson know and he will work out a time for both or each of you. Thanks

Brian
