Yes, OK. We are changing how we handle the public session. All Commissioners have had it with the smart meter crowd, their threats, yelling and screaming, etc.

Mike - there is a SmartMeter work shop on September 14. We would like to wait to change out the 20 or so SmartMeters until after that work shop to prevent parties from using the meeting as a platform to argue for more change outs. If we did, you'd have to suffer through one more PUC meeting before the change out. Does that work for you ?
