Subject: RE: Meeting to discuss HAN roll-out deployment plan

Chris V.

PG&E will be able to attend the meeting on August 25.

Thanks,

I will check with our folks and get back to you, but it should not be a problem.

Subject: RE: Meeting to discuss HAN roll-out deployment plan

Hi everyone,

I'd like to see if August 25th works for everyone to come and talk about the HAN roll-out plan.....my initial thought is to have a meeting from 10-2 with a lunch break thrown in there.

Thoughts?

Chris

Subject: Meeting to discuss HAN roll-out deployment plan

Mike, David, and Billy:

Pursuant to the direction in D.11-07-056 (the privacy decision) on the filing on a HAN deployment plan within 4 months that will allow customers to purchase and connect up to 5,000 HAN-enabled devices with their meter, per service territory, Staff would like to begin discussions in preparation for the filing of that plan.

I would like see what you're availability is over the next 2 weeks to meet with Staff about this project. If the three utilities would like to coordinate and offer a couple of dates, that would be great- otherwise, I'll propose a couple of dates after I get your initial responses.

I expect this to be the first of several meetings over the next several months, and would like to eventually expand these meetings to include third parties. For this first meeting, I plan to invite representatives from LBNL and Sac State to provide technical, third-party assistance to facilitate the development of this plan.

I may be able to provide additional perspectives on the direction for this phased roll-out soon- but, please be prepared to discuss potential plans or strategies for meeting the filing deadline, and meeting the March 1, 2012 target date.

I look forward to once again working with y'all in a collaborative manner.....

Thanks again, and please let me know if you have any questions.

Chris
