Subject: PG&E Data & MAOP Validation Project - Field Dig Notification - L-119B - Sacramento

Mr. Stepanian:

The following is information regarding a pipeline direct inspection dig to be started on Friday, August 19, 2011 in the Sacramento area:

Line 119B

Pipeline Description: 12-inch diameter pipe

Field Dig Mile Point: MP 0.75

Excavation Start Date: 8/19

Description of Work: Perform inspection to the pipeline. Ultrasonic and diameter measurements will also be performed to validate component wall thickness and OD. ABI test will be performed to validate the yield strength of the various components.

Attached please find a map identifying the location of the dig.

Contact information: Joe Medina 925.324.6461

Sincerely,
