Subject: PG&E Data & MAOP Validation Project - Field Dig Notification - L-210A -
Fairfield

Mr. Stepanian:

Following is information regarding pipeline direct inspection dig to be started on Tuesday, August 23, 2011 in the Fairfield area:

Line 210A

Pipeline Description: 10-inch diameter pipe and bend.

Field Dig Mile Point: MP 19.6898

Excavation Start Date: 8/23

Description of Work: Perform inspection to the pipeline and bend. Ultrasonic and diameter measurements will also be performed to validate component wall thickness and OD. ABI test will be performed to validate the yield strength of the various components.

Attached please find a map identifying the location of the dig.
