Paul and Michelle,

To follow up on a conversation Michelle and I had a little while ago, the attached document gives an update on PG&E's planned and completed safety enhancement actions since the San Bruno accident.

In addition to the CPUC, we will be sharing this document with the NTSB today and other stakeholders as we go forward. You may get inquires, so we wanted to make sure you got this as soon as it was available.

Please give me a call if you have questions.

Jennifer
