Subject: RE: ED Data Request re DR Applications / Tech Programs

Mary:

In parallel with this data request, I would also like to request a meeting to better understand the DR-HAN Integration project (and the associated budget) proposed in PG&E's DR application. If possible, I would like to do this next week (I can come over to PG&E to make the logistics easier). Best time for me would be late afternoon, 3'ish, on 8/9, 8/10, or 8/11. Early morning (8 or 8:30 start) can also work on Mon/Tue. Fri anytime is fine. I think an interactive session to walk thru the filing would be fine; so advance prep hopefully is not be needed.

Please note that this request is separate from the meeting request by Chris V in connection with SG decision. Please advise. Thanks.

Alope: We will turn to this right away. I will try to get an estimate for you from the witnesses today as to how long it will take to respond. I understand you would like this ASAP.

Mary

Subject: FW: ED Data Request re DR Applications / Tech Programs

Mary:

I received your vm. Yes, we had sent a data request on multiple topics to PG&E via Steve (I guess we didn't realize he was on vacation). I have attached it again here. Even though the deadline has passed, we would still like a response. We would appreciate PG&E expediting the responses under the circumstances. Thanks.

Subject: ED Data Request re DR Applications / Tech Programs

Hello Steve:

Attached is a data request in connection with IOU DR program applications for 2012-2014. We request that PG&E provide the responses by 8/3/11. I realize this may be a challenge given the scope of the data request and would greatly appreciate PG&E's efforts to accommodate the timeline.

Also, please note that PG&E should not provide any information in your answers that would consider confidential or be subject to Section 583.

Please let me know if there are any concerns or issues with the data request.

Thanks.
