Subject: RE: ED Data Request re DR Applications / Tech Programs

Hi Alope: I just spoke to Chris Warner and learned that we are setting up a SmartGrid meeting with Chris Villarreal for the week of the 18th. We think it will be most efficient and productive to combine the two meetings. Our senior director is out on vacation and is necessary for the meeting. We will have the right people in attendance during that meeting to address any questions about HAN Integration and EV Pilot. In the meantime, we will get to you our data responses on the HAN project.

Please contact Redacted about your PLS cost effectiveness questions.

Thank you.

Mary

Mary:

That will be fine. I would like to also add requests to have a short review of PLS Cost effectiveness spreadsheet and EV Pilot (objective/plan). I suggest we start at 2pm, allocate 1/2 hr to each topic above and then do HAN Integration 3-4:30. Let me know if this is ok.

For the HAN Integration, to give the team head up on what to expect: would like to understand what activities or elements are included in the "plan" and budget breakdown. in order to understand the budget request, I would like also to understand the assumptions re technology & "system architecture" underlying the Integration plan (so it would be good to have those folks accessible as needed). I may also try to get a sense of the budget impacts by exploring (during the meeting hopefully) "what if" alternate architecture/ communications & rollout scenarios.

Thanks.

Hi Aloke: It looks August 10 would be best for PG&E. Does 3 PM work?

Mary:

Just checking to see if we have closure on the schedule for the meeting request per not below. Please confirm.

Mary:

In parallel with this data request, I would also like to request a meeting to better understand the DR-HAN Integration project (and the associated budget) proposed in PG&E's DR application. If possible, I would like to do this next week (I can come over to PG&E to make the logistics easier). Best time for me would be late afternoon, 3'ish, on 8/9, 8/10, or 8/11. Early morning (8 or 8:30 start) can also work on Mon/Tue. Fri anytime is fine. I think an interactive session to walk thru the filing would be fine; so advance prep hopefully is not be needed.

Please note that this request is separate from the meeting request by Chris V in connection with SG decision. Please advise. Thanks.

Aloke: We will turn to this right away. I will try to get an estimate for you from the witnesses today as to how long it will take to respond. I understand you would like this ASAP.

Mary:

I received your vm. Yes, we had sent a data request on multiple topics to PG&E via Steve (I guess we didn't realize he was on vacation). I have attached it again here. Even though the deadline has passed, we would still like a response. We would appreciate PG&E expediting the responses under the circumstances. Thanks.

Subject: ED Data Request re DR Applications / Tech Programs

Hello Steve:

Attached is a data request in connection with IOU DR program applications for 2012-2014. We request that PG&E provide the responses by 8/3/11. I realize this may be a challenge given the scope of the data request and would greatly appreciate PG&E's efforts to accommodate the timeline.

Also, please note that PG&E should not provide any information in your answers that would consider confidential or be subject to Section 583.

Please let me know if there are any concerns or issues with the data request.

Thanks.
