Subject: FW: 8/12 PRG Meeting

David,

I was out of the office yesterday and just took a look at the final draft of the questions I initially put together. I communicated a "slightly" different set of questions to you and was surprised to see additional questions that involve some complex discussion at the PRG. My intention was to give you a relatively transparent overview of the questions you would be asked when we spoke last Friday for your discussion with Sandy and others. If you have any questions give me a call.

Jason

David,

Please see the attached document for a list of items and questions that Energy Division would like PG&E to address in its 2011 RPS shortlist presentation to the PRG presentation.

Please let us know tomorrow if you have any questions regarding the attached list.

Thank you,  
Cheryl

Hi:

Just checking in again to see if you will be able to send us your list of questions that you would like addressed during the 8/12 shortlist meeting by COB today?

-David

Sean:

You are correct on the first question. We would appreciate getting all of the questions you want answered during the 8/12 meeting re: 2011 RFO in advance so we have enough time to provide you with detailed answers during the meeting.

The 8/16 date is being changed to 8/12. Apparently our PRG person is holding off on sending out a revised time on the 12th until she resolves some scheduling conflicts. Please hold the 12th open and she will be sending out an updated calendar invite shortly.

Best,  
David

David,

Just to be clear, you are talking getting guidance from staff concerning what information and analysis concerning the 2011 solicitation we would like provided to the PRG, correct? Not necessarily issues concerning Abengoa and SolarReserve, right?

Also, I have an 8/16 PG&E PRG meeting invite on my calendar but nothing on 8/12 (although I see 8/12 on your PRG meeting materials discussed at the July PRG) - can you check to see that PG&E has the proper PRG meeting invite out there on everyone's calendar?

Thanks, Sean

I will look into that. For the first item, please let me know if the end of this week works to get your 8/12 PRG questions once you have had a chance to talk with the rest of your team. I'd like to get back to Sandy to let her know if this will be workable so she can plan accordingly.

Nice chatting with everyone on Friday. I think this type of meeting format is very productive and look forward to having more in the future.

In order for PG&E to be properly prepared to address all of your questions at the 8/12

PRG meeting, we would like to ask you to please try to send them to us by the end of this week. We know that you will be very eager to touch on a lot of points, but in order for us to be properly prepared, we would appreciate having some lead time to get all of your questions answered in advance. This should make the meeting more productive and more efficient. Does this timeframe work for everyone? Please let us know.

Also, attached are the two valuation charts from Friday's meeting. We have added a new column for transmission adders, although the 2011 RFO deals are still TBD. We should have updates for those by the 8/12 meeting.

Best,

David
