505 VAN NESS AVENUE  
SAN FRANCISCO, CA 94102-3298

September 16, 2011

James Davis  
Mayor  
City of Antioch  
P.O. Box 5007  
Antioch, CA 94531

Re: Improving Public Safety by Testing Gas Pipelines

Dear Mayor Davis:

As you may be aware, the California Public Utilities Commission is taking a very active role in efforts to improve the safety of California's natural gas system. As part of these efforts, PG&E has been ordered by the Commission to pursue hydrostatic testing of its natural gas transmission system. During hydrostatic testing, PG&E's pipes will be pressurized with water to ensure the safety and integrity of the gas system.

Some hydrostatic tests are scheduled for your jurisdiction, and we are aware this work might inconvenience local residents and businesses. Local jurisdictions have many challenges in these constrained times, and public safety is a priority on which I know we can all agree. Toward that end, I ask your assistance in prioritizing this work with PG&E to address expeditiously any permit requirements related to the hydrostatic test work.

If you have any questions or concerns, please do not hesitate to call Michelle Cooke, Interim Consumer Protection and Safety Division Director at 415-703-2349 or [mlc@cpuc.ca.gov](mailto:mlc@cpuc.ca.gov).

Thank you in advance for your help in ensuring public safety.

Sincerely,

A handwritten signature in black ink that reads "Paul Clanon".

Paul Clanon  
Executive Director

September 16, 2011

Bob Wasserman  
Mayor  
City of Fremont  
3300 Capitol Ave.  
Fremont, CA, 94538

Re: Improving Public Safety by Testing Gas Pipelines

Dear Mayor Wasserman:

As you may be aware, the California Public Utilities Commission is taking a very active role in efforts to improve the safety of California's natural gas system. As part of these efforts, PG&E has been ordered by the Commission to pursue hydrostatic testing of its natural gas transmission system. During hydrostatic testing, PG&E's pipes will be pressurized with water to ensure the safety and integrity of the gas system.

Some hydrostatic tests are scheduled for your jurisdiction, and we are aware this work might inconvenience local residents and businesses. Local jurisdictions have many challenges in these constrained times, and public safety is a priority on which I know we can all agree. Toward that end, I ask your assistance in prioritizing this work with PG&E to address expeditiously any permit requirements related to the hydrostatic test work.

If you have any questions or concerns, please do not hesitate to call Michelle Cooke, Interim Consumer Protection and Safety Division Director at 415-703-2349 or [mlc@cpuc.ca.gov](mailto:mlc@cpuc.ca.gov).

Thank you in advance for your help in ensuring public safety.

Sincerely,
