Shilpa:

Due to the workshop on Monday and Tuesday, Wednesday at 1 will be the only time that works. As for John Kiefner, I'll include him on the notice when I send out the call-in information.

Sunil,

Our team is available to meet with you at the following times below. We also think that it would make sense to have John Kiefner on the line if there are questions about reasoning in the report. Will you also include him?

Monday, 9/26 12:00 - 12:30

Tuesday, 9/27 9:00 - 9:30 or 9:30 - 10:00

Wednesday, 9/28 1:00 - 1:30

Thanks.

Shilpa

Shilpa:

This is to follow-up on a conversation I had with Ben this morning.

I have reviewed the June 6, 2011 Final Report, Effect of Rounded Inclusions on the Integrity of Submerged-Arc-Welded-Seams, which Kiefner and Associates prepared for PG&E. Based on my review, I have several questions and concerns which I would like to discuss with PG&E. Please let me know of the availability of folks on your end for a teleconference to discuss the report.

Thanks, Shilpa.

Sunil

Sunil,

As a follow-up to our previous conversation on mechanical testing procedures, Ben and I wanted to share with you the final mechanical testing instructions that incorporate all of your comments and some additional clarifications. I have included a redline version for you to view the changes to the document since you last edited it.

I have also included a clean version from which we are now operating. If you have any additional comments, please let me know by next Wednesday.

Thanks.

Shilpa
